Prolan Grease Anti Seize

SIZES : 500ml, 4 litre and 20 litre

PROLAN LANOLIN LUBRICANTS

Prolan is an all-purpose natural lanolin lubricant and corrosion inhibitor. Its unique properties surpass other petrochemical products in performance, reliability, longevity, protection, safety and asset maintenance. Prolan grease anti-seize will preserve, lubricate, and protect your assets long term.

RECOMMENDED USES

- Extremely good anti-seize to use in assembly/disassembly of components. Not suitable for high temp applications.
- Extremely good anti seize for prevention of galling on stainless steel threads.
- Added electrolysis barrier between dissimilar metals.
- Non-conductive to 70kv.
- Smear around all electrical connections to prevent moisture corrosion.
- Assembly of components that have to be removed or opened up for regular maintenance.
- Excellent in slow moving pins and bushes as water is unable to wash it out.

FEATURES

- Long lasting protection saving time on multiple reapplication
- Will stay in the joint or threads for long periods and allow easy removal of components anytime in the future.
- Can't be washed out of the joint by high pressure water blasting or salt water.
- Won't break down rubber and wiring.
- Seals off the surfaces from air and moisture and prevents corrosion.
- Safe to use, environmentally friendly and biodegradable.

APPLICATION

- Apply to thread or flat surface using finger, rag or by dipping the component into the tub.
