

Farm Maintenance Protection

Prolan Grease Anti Seize

SIZES : 500ml, 4 litre and 20 litre

PROLAN LANOLIN LUBRICANTS

Prolan is an all-purpose natural lanolin lubricant and corrosion inhibitor. Its unique properties surpass other petrochemical products in performance, reliability, longevity, protection, safety and asset maintenance. Medium grade liquid lanolin will preserve, lubricate, and protect your farm assets long term.

RECOMMENDED USES

- Extremely good anti-seize to use in assembly/disassembly of components.
- Extremely good anti seize for prevention of galling on stainless steel threads.
- Added electrolysis barrier between dissimilar metals.
- Smear around all electrical connections to prevent moisture corrosion.
- Assembly of components that have to be removed or opened up for regular maintenance.
- Excellent in slow moving pins and bushes as water is unable to wash it out.

FEATURES

- Long lasting protection saving time on multiple reapplication
- Will stay in the joint or threads for long periods and allow easy removal of components anytime in the future.
- Can't be washed out of the joint by high pressure water blasting or salt water.
- Won't break down rubber and wiring.
- Seals off the surfaces from air and moisture and prevents corrosion.
- Safe to use, environmentally friendly and biodegradable.

APPLICATION

- Apply to thread or flat surface using finger, rag or by dipping the component into the tub.
